“The significance of our lives and our fragile planet is then determined only by our own wisdom and courage. We are the custodians of lifes meaning. If we crave some cosmic purpose than let us find ourselves a worthy goal.”

Carl Sagan

Concept for selection committee

Design Developed for budgeting and board approval

Estimated Cost	\$-,-08,745
Awarded Bid	\$-,-22,730
Difference	+\$13,985

“You can't stop reality from being real.”
Public Enemy – Flavor Flav

Copper's Applications in Green Buildings
Many copper-containing building products have high recycled content—often exceeding 80%. Perhaps more importantly, these products are durable, have long life spans, are low maintenance—requiring little repair or replacement—and are readily reusable or recyclable.
